

Electronic Fence

Fence Opening Delays

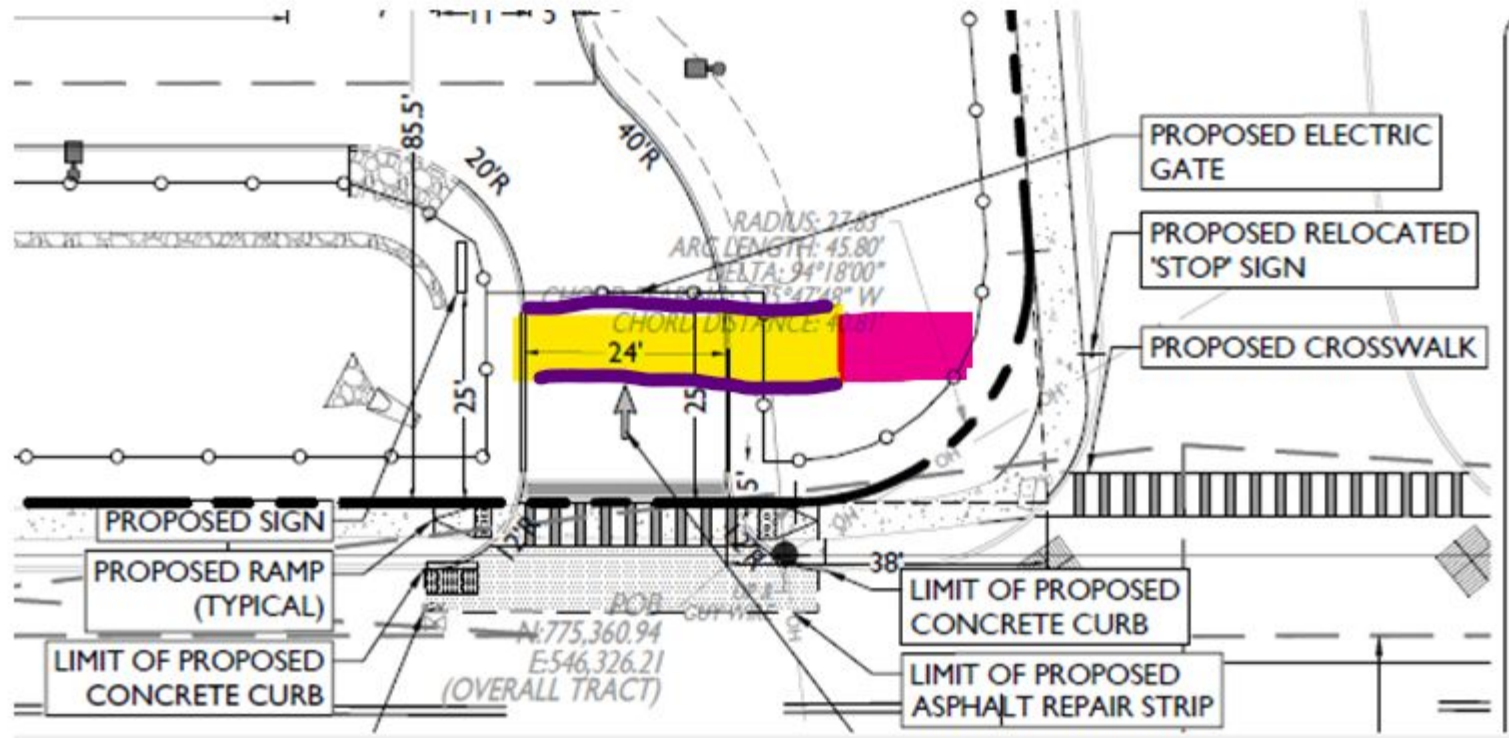

- 24' Fence = ~ 700 lbs
- Time to open = 30 seconds
- Vans arriving at same time = back-up on Roome, Sunset and Washburn

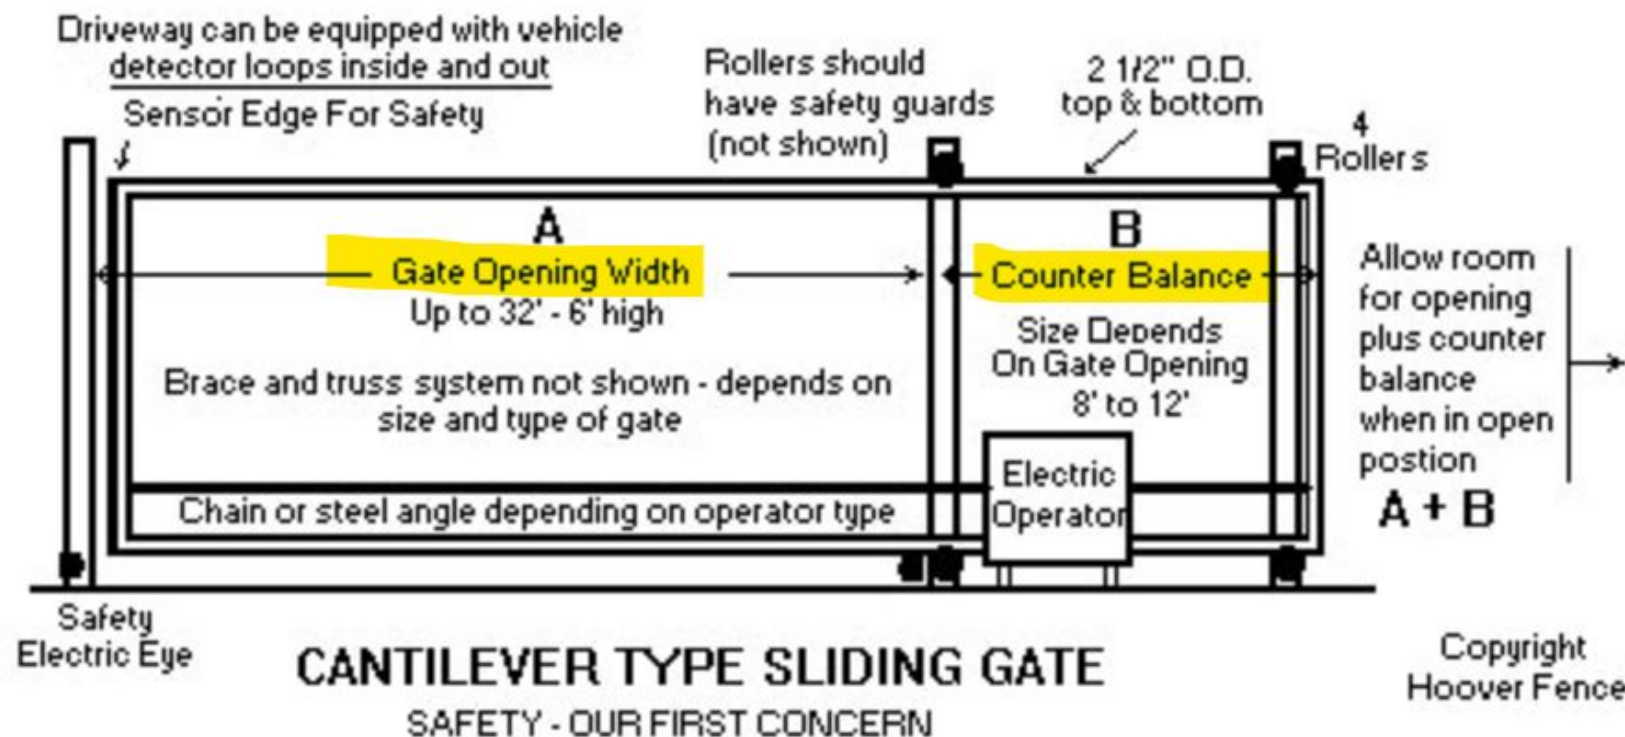

Gate Spec Size is Too Small

- **24' wide gate** opening requires **allowance of 36'**
- Counterbalance + **12'**

Elevation Change

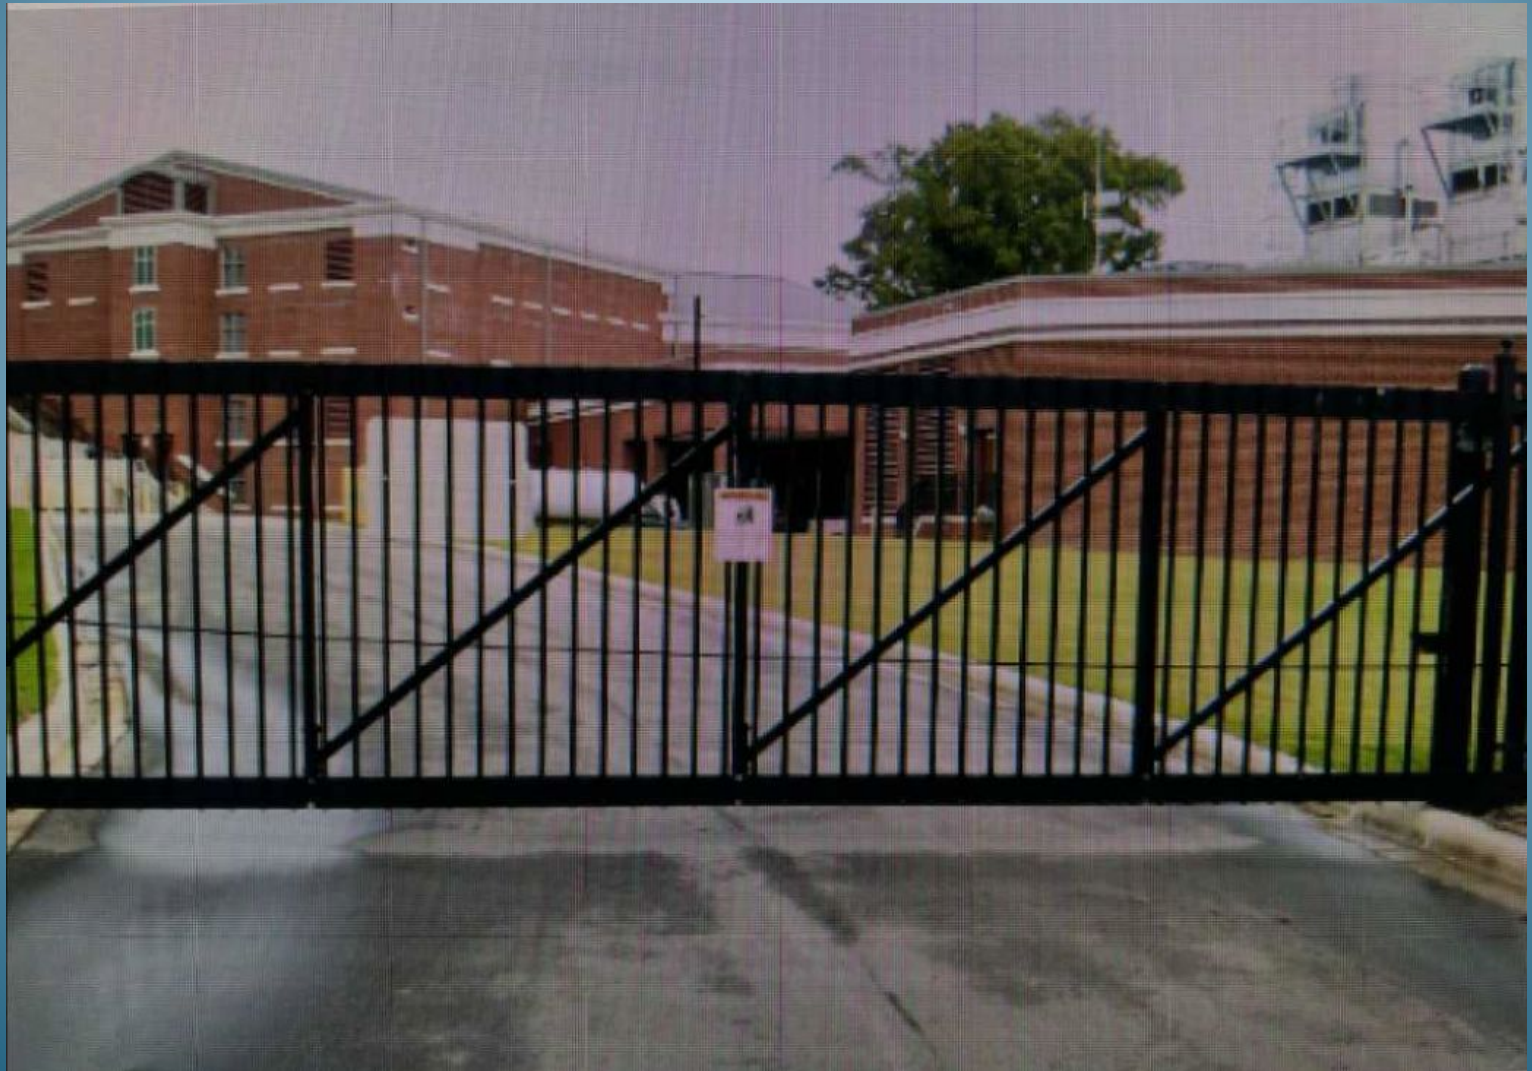

- 2' drop in elevation entranceway to Roome
- To remain level, fence must be ~2 feet off ground
- Resulting height = 7 to 7.5 feet

Thank you
